

PagoPA

new online electronic payment system

How is the new electronic payment system

- Politecnico di Torino has decided to adopt the new national payment system called PagoPA in compliance with current legislation.
- PagoPa is a technological platform which allows to connect the Public Administration with the Providers of Payment Systems (PSP), i.e. the banks.
- For further details, please check the AGID (Agenzia per l'Italia Digitale) at

http://www.agid.gov.it/agenda-digitale/pubblica-amministrazione/pagamenti-elettronici

Advantages for students

- PagoPA allows students to choose among different Payment Services Providers (banks).
- Students can see the different commissions applied by the various banks and choose the bank with the lowest commission.
- In addition, students can check which bank accepts their credit card and which does not.
- Same graphic interface and same operators at national level.
- Better transparency: students are not required to use a specific bank to pay; they can choose the bank they prefer, including thier own bank if this is part of the PagoPa system.

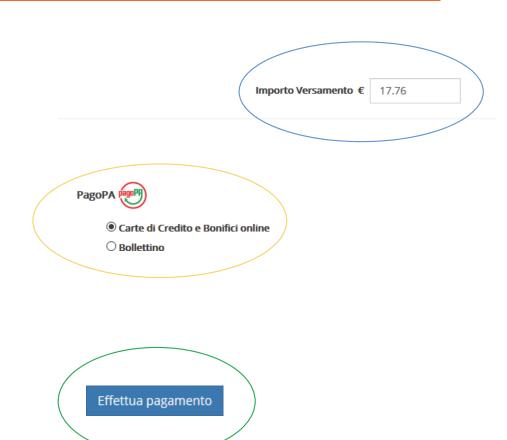

ONLINE PAYMENT PROCEDURE WITH PagoPA

- Log into your personal page of the Teaching Portal -> "Segreteria Online / Online Services" tab
- Click the "Tuition fees and payments" portlet
- Enter the payment amount if not already set by the system
- Select the payment method between "credit card or online bank transfer" or "create a delayed payment (MAV)". The latter can be paid at a bank or tobacconist's shop
- Click on «Next» or «Create delayed payment» according to your previous selection
